

Commenting on the proposal

Thank you for taking the time to find out more about our proposal for Kinnelhead Wind Farm.

This exhibition forms part of our pre-application consultation and, whilst the design is almost finalised, this event provides you with an opportunity to submit written feedback to RES, if you wish, on the updated design.

Our team are here to discuss the project with you and do our best to answer any questions that you may have, but please note that formal feedback to RES on the updated design needs to be submitted in writing.

If you would like to provide feedback to RES on the project you can do so by:

- Completing a form at one of the events and handing to a member of the team
- Sending a form to kinnelhead.windfarm@res-group.com or Third Floor STV, Pacific Quay, Glasgow G51 1PQ

The closing date for written feedback to RES is Friday 31 July 2026.

Please note that comments to RES at this time are not representations to the determining authority (The Scottish Government's Energy Consents Unit). There will be an opportunity to submit representations to the determining authority should an application be submitted.

Your feedback matters

Feedback on the updated design at this time will help us ensure we have considered everything and improve the overall quality of the planning application from a community perspective.

In addition to confirming any current support, opposition, or neutrality to the proposal at this stage, please consider submitting any constructive feedback that you may have regarding the design and delivery of the project.

Planning submission timescales and next steps

We currently expect to submit the Section 36 application later this year.

A Pre-Application Consultation (PAC) Report will accompany the planning application submission. The report will summarise the consultation activity that has been undertaken on the project, the feedback received and how we have responded to it.

Once submitted, the determining authority (Scottish Government's Energy Consents Unit) will advertise the planning submission and hold a statutory consultation period whereupon members of the public as well as statutory consultees, can submit their formal comments on the proposal.

If you would like to be kept up to date with the proposal and be informed on the next steps, please fill in a comment form with your details or speak to one of the project team.
